Silver Spring, MD.

Dear ☐ ☐ This is to confirm our last conversation on August 29th inst. at Governor Clinton's Hotel in New York City. I take the liberty to express my personal opinion to the subject which we have discussed together. There is no doubt that to have freedom men in name of Freedom is absolutely necessary, it also holy duty to every Caucasian to help as much as could be possible to <sup>take</sup> destruction action against Soviet regime, who already exterminated nearly thousand innocent Caucasians, also they are at present under very harsh treatment and these crimes are only their love for freedom.

As far as I can think and study of my compatriots here in USA or in any country outside of the Soviet Russia, most of them were single laborer worker and a certain number of young men who were attending Soviet schools, and they were devoted of their

rights in completing these studies as World War II has broken, which unfortunately makes most of our men irresponsible (man with a little knowledge is danger as wise men say it). In many occasions I noticed among our men that there is no secrets. In fact I do not afford of our men as I do think that something said <sup>by one of them</sup> which should be kept in secret may reach ears of our enemies who may take entire actions if not right here in Caucasus. Also there is a small number of well educated ones among Caucasians specially in Germany or in Turkey.

Therefore regardless their backgrounds in my opinion it will be the best if this will be worked out as followings:

1. To select very carefully every man who has to be considered for future training.

2. To be very careful with ex P.O.W. in Germany although most of them fought with Germany against Russian troops. (IT IS KNOWN HOW MANY OF THEM WERE FORCED TO VALENTINE DURING WAR AND IT ALSO KNOWN THAT MANY OF THEM ARE THINKING EVEN TO-DAY THAT IF IN CASE THEY FALL IN HAND OF SOVIET RUSSIANS THEY COULD FIND EXCUSES)

3. The way of approach to the candidates preferred as I told you during our conversation in N.Y.C. why this is necessary I believe it may cover well enough situation, for example let us say that name one said to somebody that he was asked

by Authorities that <sup>3</sup>authorities are interesting in him for use after Caucasus will be freed from Communist regime as he is very important person in his native land, etc. if this words will reach ears of Soviet agents I think they should laugh only on this point as they should learn that among them are nobody whose help necessary to your Government after liberation.

4. Very advisable to train them separately if this is allowable by your set up situation so as you will not be able to know others this point will help in two directions: 1. you can learn from X if Mr. Y talks about things which should be kept secret and 2. If in case one refuses to do something which may be proposed he would not know others.

5. During your conversations with them you have to let him feel that separately that you can trust him only and he is only dependable person and his cooperation is vitally important, this is necessary as everybody of us feels that without him would not blow so why you should not say things which agreeable as long as you do not loose anything.

6. You should never mentioned at the beginning that you are going to use them for any Agent work as probably they never heard that man does things in name of his country

4  
so be sure also that they do not believe  
that man can do such things unless he is a  
Angel. If in part or in present such men  
were available in Europe they were agreeing  
only from material point of view. Of course  
there are men who are ready to sacrifice themselves  
for their country but how many of them?

If you will take into consideration  
above mentioned points, and men will be  
ready for use in future date, the way of  
their convincing mainly will depend how  
they should feel, anyhow I believe it is still  
a little early than necessary so there is no necessity  
to talk about it now, when time comes we  
shall find right way and right way to everyone  
of them.

Allow me to tell you that as far as it  
may concern me, I am always ready to help you  
as much as I can, be sure of that always please.

Sincerely yours,  
Fochin (Bob) & Son

P.S.  
Please confirm receipt of this letter,  
And also forgive me for my  
English.
